

**<Press Release> Million Tech wins e-zone's e-Brand Award for 2 Consecutive Years -
The Best of Intelligent Robotics Labelling System**

For Immediate Release

Hong Kong, 15 Aug 2018 - Million Tech Development Limited (Million Tech) is pleased to announce that the company has won e-zone's e-brand award for 2 consecutive years and is proud to be awarded as "The Best of Intelligent Robotics Labelling System" (最佳人工智能貼標系統) this year. It fully demonstrates the company's system excellence and successful breakthroughs in the robotic labelling industry.

Million Tech's Intelligent Robotics Labelling System (IRLS) is a one-stop Artificial Intelligence (AI) labelling solution saving cost and improving productivity for importers and logistics companies. The IRLS' labelling speed is 10 times of using human operator and it saves 5 manpower in cost. In addition, the label content is printed at the system without using the preprinted label. It further saves the printing and arrangement cost of labour. The system can label different shape of products and keep no human errors.
